

JETPAKT · ONE-TIME SCAN

Big Daddy's Pizza — West Colfax

4250 W Colfax Ave · Denver, CO 80204 (West Colfax / Sloan's Lake)

Scan generated April 18, 2026

2.6	52%	234	-1.73
Public rating	Recent negative share	Total public reviews	Rating vs. 3 local peers

Overall signal severity

Public review sources: [Yelp](#) · [TripAdvisor](#) · [Reddit](#) · [Google](#)

Prepared by JetPakt · ReviewSentinel methodology · Every finding below is tied to a verbatim public review.

Executive snapshot

Big Daddy's Pizza — West Colfax is sitting at 2.6 stars across 234 public reviews, with roughly 52% of recent reviews rated 1–2 stars. That puts the rating 1.73 stars below the 3-peer local benchmark (4.33 average).

The three signals driving the most guest friction right now are Billing / Check Accuracy · Service Pacing · Server Attitude & Hospitality. All are actionable inside 30–90 days without capex, and none require public apology statements.

Legal-review recommended on: Billing / Check Accuracy. See flag detail in the signals section.

Estimated recovery potential

\$590–\$1,940	\$7,089	145–476x
Estimated monthly recovery range	Annualized at the conservative floor	Projected ROI on the \$49 scan

Estimated from ~1,053 monthly covers at an average check of \$38 (price tier \$\$, casual category). We apply a 5% revenue lift per full star¹ and a 24% peak-hour uplift per half-star², assuming 0.1–0.2 stars of improvement inside 60–90 days after a single recommendation lands. Manager time saved on ~3 reviews/mo using defamation-safe drafts is added on top.³

Ranges, never point estimates. Recovery is conditional on executing at least one 30-day action from the plan below.

1. Luca, M. — Reviews, Reputation, and Revenue (HBS 12-016) — 5–9% revenue per star, independent restaurants; we use 5% lower bound (https://www.hbs.edu/ris/Publication%20Files/12-016_a7e4a5a2-03f9-490d-b093-8f951238dba2.pdf).

2. Anderson & Magruder (UC Berkeley) via ChowNow synthesis — 24% peak-hour uplift per half-star midpoint (<https://get.chownow.com/blog/impact-of-online-reviews-on-restaurants/>).

3. One-Haus 2025 Check Averages — QSR \$8–\$12 · casual \$28–\$52 · upscale \$55–\$95+ (<https://one-haus.com/blog/post/rising-check-averages-in-u-s-restaurants-causes-trends-and-strategies>).

Grow review volume — the compliant way

More recent reviews compound with the fixes in this scan: they improve Google local-pack ranking, smooth out the rating when a bad night happens, and give the 30/60/90 plan something to measure against. You have 234 lifetime reviews today — a realistic 60-day target is +12 to +25 new Google reviews at your current cover volume.

- QR card at bill drop. Print a neutral “How was it? Tell us on Google” QR on the check presenter. Given to every guest — never conditioned on a positive experience.
- Post-meal email or SMS (opt-in only). If you capture emails at reservation, send a single neutral follow-up within 24 hours linking directly to your Google Business Profile review form. Same wording for everyone; no pre-screening for satisfaction.
- Owner responses within 48 hours. Responding to reviews — positive and negative — is the single biggest signal Google associates with higher local ranking. Use the defamation-safe response templates later in this scan.

- Staff scripting, consistent across shifts. Train the FOH team on one sentence: “If you had a good time, we’d love a review on Google — no pressure either way.” No tip-linked asks. No competitions. No rewards.
- Google Business Profile hygiene. Keep hours, photos, menu link, and reservation link current. Post a weekly update. A complete profile gets asked for reviews more often by Google itself.

AVOID — these carry real penalties. Do not solicit reviews on Yelp — Yelp’s software actively filters solicited reviews to the “not recommended” section, where they don’t count toward your star rating¹. Do not offer discounts, free items, or contest entries in exchange for reviews — Google can remove reviews and suspend your Business Profile², and the FTC’s 2024 Final Rule allows civil penalties up to \$51,744 per violation³. Do not pre-screen (“review gating”) — asking only happy guests is an explicit policy violation.

1. Yelp Support — Don’t Ask for Reviews — Yelp’s solicitation policy and automated filter behavior (https://www.yelp-support.com/article/Don-t-Ask-for-Reviews?l=en_US).

2. Google Business Profile — Prohibited content — No selective solicitation, no incentivized reviews, no gating (<https://support.google.com/contributor/answer/7400114>).

3. FTC Final Rule on Consumer Reviews (effective Oct 21, 2024) — Bans fake, incentivized, and insider reviews; up to \$51,744 per violation (https://www.wilmerhale.com/-/media/files/shared_content/editorial/publications/wh_publications/client_alert_pdfs/20241009-ftc-finalizes-rule-banning-fake-reviews.pdf).

Top 3 quantified signals

Severity is scored 1–10 from recent negative share, review recency, and evidence density. Every signal is tied to verbatim public review text — the quotes below are the only claims this document makes.

1. Billing / Check Accuracy

9.7 / 10 · HIGH

Category: Billing · Evidence count: 3 recent reviews

LEGAL-MED · Price disputes benefit from menu-photo evidence and documented refund/comp policy. Do not argue pricing in public response threads.

“TLDR: charged me twice instead of refunding money for food that wasn't delivered. The food I ordered was never delivered. I called the next day and the man who answered said he would refund the money and it would show up in a few days. Instead of refunding the money he charged me AGAIN. I am now having to file a claim through my bank disputing all the charges.”

— Yelp, 2024-10-30 · 1-star ([source](#))

“I love when my order arrives missing what I ordered and paid extra for. Missing the pepperoni and couldn't get an answer on what they would do to fix it.”

— Yelp, 2024-06-02 · 1-star ([source](#))

2. Service Pacing

9.7 / 10 · HIGH

Category: Operations · Evidence count: 4 recent reviews

“TLDR: charged me twice instead of refunding money for food that wasn't delivered. The food I ordered was never delivered. I called the next day and the man who answered said he would refund the money and it would show up in a few days. Instead of refunding the money he charged me AGAIN. I am now having to file a claim through my bank disputing all the charges.”

— Yelp, 2024-10-30 · 1-star ([source](#))

“Pizza is very average, it's fine if you don't need any specialty toppings or after a night of drinking. It took forever for them to deliver the pizza even though I live down the block. They forgot to give me the ranch and garlic butter that I paid for. Next time I will be ordering elsewhere.”

— Yelp, 2024-08-14 · 2-star ([source](#))

3. Server Attitude & Hospitality

9.4 / 10 · HIGH

Category: Hospitality · Evidence count: 2 recent reviews

“Ordered a pizza via GrubHub. Delivery window was 3:30-3:50. I called at 4:15 to see where the order was and they never answered the phone. I called 8 times in a row. Canceled the order and at 4:20 they called and asked if I was willing to wait another 30-40 minutes.”

— Yelp, 2024-03-11 · 1-star ([source](#))

“I received a Happy Birthday reward via email. I printed the coupon for a birthday BOGO. The store that had its address printed on it refused to honor it. One of my worst customer service experiences.”

— TripAdvisor, 2025-05-15 · 1-star ([source](#))

Local peer benchmark

Comparison against 3 nearby peer restaurants. Ratings are pulled from public review platforms (Yelp, TripAdvisor, Google). Peers are shown at reduced emphasis so your business is the focal point.

Location	Rating	Reviews	Tier
Big Daddy's Pizza — West Colfax (you)	2.6	234	\$\$
Cart-Driver (LoHi)	4.5	1087	\$\$
Sexy Pizza — Jefferson Park	4.2	612	\$\$
Benny Blanco's Pizza	4.3	487	\$

- Cart-Driver (LoHi) — [Yelp](#)
- Sexy Pizza — Jefferson Park — [Yelp](#)
- Benny Blanco's Pizza — [Yelp](#)

Closing half of the current 1.73-star gap against these peers is the commercial target for the next 90 days.

30 / 60 / 90-day action plan

Concrete actions mapped to the top 3 signals. Owners are role-based so the plan survives staffing changes.

First 30 days — stabilize

Owner	Action	Signal
GM	Post all menu prices photographically in POS; enable item-level price alerts for modifiers.	Billing / Check Accuracy
GM	Implement table-touch cadence: server visits every 5 min in first 15 min of seating.	Service Pacing
FOH Lead	Post a kitchen-ticket expo timer at the pass; surface tickets over 18 min to a manager.	Service Pacing
GM	Reset the greet standard: every guest acknowledged within 60 seconds; 30-second rule for seated tables.	Server Attitude & Hospitality
GM	Daily pre-shift: one hospitality moment of the day; no-phones-on-floor policy enforced.	Server Attitude & Hospitality

30–60 days — systematize

Owner	Action	Signal
GM	Monthly POS price-audit vs. printed menu; log variance.	Billing / Check Accuracy
GM	Run section-load analysis; cap sections at 5 tables during dinner rush.	Service Pacing
Ownership	Add a dedicated drink-runner Thu–Sat 5–9 PM.	Service Pacing
GM	Mystery-diner program: 2 visits/month with a scored hospitality rubric.	Server Attitude & Hospitality
Ownership	Tie a hospitality KPI (review sentiment lift) to server performance reviews.	Server Attitude & Hospitality

60–90 days — compound

Owner	Action	Signal
Ownership	Roll out digital menu QR with live pricing.	Billing / Check Accuracy
Ownership	Review POS pacing data monthly; target avg ticket-to-food under 14 min.	Service Pacing
Ownership	Formal hospitality training refresh (Unreasonable Hospitality / Setting the Table frame).	Server Attitude & Hospitality

Defamation – safe response drafts

Five drafts tied to the most recent lower-rated public reviews. All drafts follow three rules: acknowledge without admitting fault, move the conversation off the public thread, and avoid naming any individual staff or guest. Every draft requires human approval before publishing.

Draft 1 · TripAdvisor · 2025-05-15 · 1-star

“I received a Happy Birthday reward via email. I printed the coupon for a birthday BOGO. The store that had its address printed on it refused to honor it. One of my worst customer service experiences.”

Draft 4 · Reddit · 2023-03-29 · 1-star

"Big Daddy's on Colfax. It made 7-11 pizza look amazing and the service was equally awful. I had a terrible experience at the West Colfax location — soggy dough, all the toppings dumped in the middle, and they even messed up delivery and I ended up going in to pick up the pizza after waiting over an hour past the delivery time."

[Review source](#)

Suggested response:

We appreciate you letting us know — this is not the standard we hold ourselves to on these dishes. The team is re-tasting and checking our build specs this week. If you're open to it, reach us at and we'll make your next visit right.

Status: HOLD — requires human approval before publishing

Draft 5 · Yelp · 2024-03-11 · 1-star

"Ordered a pizza via GrubHub. Delivery window was 3:30-3:50. I called at 4:15 to see where the order was and they never answered the phone. I called 8 times in a row. Canceled the order and at 4:20 they called and asked if I was willing to wait another 30-40 minutes."

[Review source](#)

Suggested response:

Thank you for taking the time to share this — a wait like that is not the experience we want any guest to have. Our team is reviewing pacing during that daypart and we'd welcome the chance to make it right on a return visit. Please reach us at so we can follow up directly.

Status: HOLD — requires human approval before publishing

Where this can go next

This document is the \$49 One-Time Scan. JetPakt also runs continuous monitoring, multi-location dashboards, and workflow-integrated reputation operations.

Plan	Price	What's included
One-Time Scan	\$49	Snapshot + checklist (this document).
Monthly Essentials	\$99/mo	Ongoing sentiment monitoring across Yelp, Google, TripAdvisor.
Weekly Insights	\$199/mo	Deeper analysis, priority-ranked plans, trend alerts.
Multi-Location	from \$399/mo	Cross-site dashboards for groups and operators.
Enterprise Integration	Custom	API access, automation, governance, SSO.

About the methodology

JetPakt ReviewSentinel pulls verbatim public review text, maps each excerpt to a controlled signal taxonomy, and scores severity from recent negative share × recency × evidence density. No individuals are named in generated body copy. Reviewer first names may appear inside verbatim quotes because they belong to the reviewer, not the business. Response drafts are generated from templates and always require human approval before publication. Legal-flagged signals (service fees, food safety, billing disputes) should be routed through ownership and legal review prior to any public response.
